Protos offers a variety of solutions through our distinguished principals.

**PRINCIPALS:**
- BMP
- CSD
- DSTI
- First Subsea
- GW Lisk
- Hohner Automation
- Indelac
- Jewell Instruments
- Martec
- Meridian
- Pyropress
- Scott Rotary Seals
- Sensy
- Spinner

**APPLICATIONS:**
- Downhole
- Subsea
- Topside

**TOPSIDE SOLUTIONS**

**Hohner Automation**
- Absolute & incremental encoders & tachometers with ATEX, CSA, UL & IECEx certifications.
- Automation & complete design-for-purpose assemblies such as geolographs, mudflow & hook-load sensors.
  
```
Hohner Automation
Absolute & incremental encoders & tachometers with ATEX, CSA, UL & IECEx certifications. Automation & complete design-for-purpose assemblies such as geolographs, mudflow & hook-load sensors.

Hohner Automation

```

**Pyropress Engineering**
- Explosion & flame proof switches for pressure, differential pressure, vacuum, temperature, level & flow with ATEX & IECEx certifications. Pressure & Temperature transmitters with ATEX, Exd & Exia certifications.

**Meridian Laboratory**
- ROTOCON® high-performance, low noise, non-contacting, rotary connectors & assemblies that are environmentally sealed with high current handling & power and control signals capabilities in same assembly.

**Spinner ICT**
- Fiber optic rotary joints and sliprings used for broadband applications allowing signal transmission in the frequency range from DC up to 67 GHz. FORJs can be flexibly adapted to accomodate your needs.

**Dynamic Sealing Technologies, Inc.**
- Standard & custom rotary unions & swivels for demanding applications such as coiled tubing, casing running, cementing tubs, drilling mud, subsea & high pressure lines.

**Sensy S.A.**
- Force & torque solutions, such as load pins, hook load sensors, pancake load cells, & reaction torque transducers.
- ATEX, CSA, & IECEx certifications available.

**Indelac**
- Quarter-turn electrical actuators to match your valve torque and safety requirements.

**Martec Limited**
- Wide selection of specialty connectors & penetrators designed for extreme pressure & temperature.

**G.W. Lisk Company**
- Customized hazardous area rated ultra-high accuracy LVDTs.

**CONTACT INFO:**
- Main: (918) 298-8832
